## **STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR MYANMAR THILAWA SEZ HOLDINGS PUBLIC LIMITED**

It is the responsibility of the management to prepare the interim consolidated statements of financial position of **Myanmar Thilawa SEZ Holdings Public Limited and its subsidiary (the Group)** and interim statement of financial position of **Myanmar Thilawa SEZ Holdings Public Limited (the Company)** as at September 30, 2017, the interim consolidated statement of comprehensive income of the Group and interim statement of comprehensive income of the Company, interim consolidated statement of changes in equity of the Group, interim statement of changes in equity of the Company and interim consolidated statement of cash flows of the Group and interim statement of cash flows of the Company for the period then ended, and a summary of significant accounting policies and other explanatory notes. In preparing these interim consolidated financial statements, the management is required to:

- Select suitable accounting policies and then apply them consistently; and
- Make judgments and estimates that are reasonable and prudent.

The management is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Group and the Company. We, as management committee, have general responsibility for taking such steps as are reasonably open to us to safeguard the assets of the Group and the Company and to prevent and detect fraud and other irregularities.

On behalf of Management

**WIN AUNG**

Chairman

**Myanmar Thilawa SEZ Holdings Public Limited.**

## Report on Review of Interim Financial Information

To the Members of the Group of Myanmar Thilawa SEZ Holdings Public Limited

### Introduction

We have reviewed the accompanying interim consolidated statement of financial position of **Myanmar Thilawa SEZ Holdings Public Limited (the "Company")** and its subsidiaries (the "Group") as of September 30, 2017 and the related interim consolidated statement of comprehensive income, changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim consolidated financial statements in accordance with Myanmar Accounting Standard (MAS) 34 Interim Financial Reporting. Our responsibility is to express a conclusion on these interim consolidated financial statements based on our review.

### Scope of Review

We conducted our review in accordance with Myanmar Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Myanmar Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim consolidated financial statements are not prepared, in all material respects, in accordance with Myanmar Accounting Standard (MAS) 34 Interim Financial Reporting.

**MYANMAR THILAWA SEZ HOLDINGS PUBLIC LIMITED AND ITS SUBSIDIARY  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE SIX-MONTH PERIOD ENDED SEPTEMBER 30, 2017**

---

**1. General information**

Myanmar Thilawa SEZ Holdings Public Limited (the Company) was incorporated in the Republic of the Union of Myanmar on May 3, 2013 under The Myanmar Companies Act.

On 26 May 2013, pursuant to the Cooperation Memorandum, the Company signed a Memorandum of Understanding with MMST LLP (MMS Thilawa Limited Liability Partnership) for the purpose of establishing the Joint Venture Company for the development, marketing, sales and operation of the Class A Project.

On 29 October 2013, pursuant to the Memorandum of Understanding mentioned above, the Company, the Thilawa SMC (Thilawa SEZ Management Committee) and MMSTD (MMS Thilawa Development Co., Ltd) entered into the Joint Venture Agreement in connection with the establishment of the JV Company to undertake the development, construction, marketing, sales and operation of the Class A project. The Joint Venture Company was established as Myanmar Japan Thilawa Development Ltd. (MJTD).

Under the Joint Venture Agreement, subject to the satisfaction of certain prescribed conditions precedent, the Company will collectively subscribe for JV Company Shares of an initial aggregate amount of US\$50,000,000 in the proportions of 41%.

The principle business activities of the Company are to:

- invest in and participate in the management of the JV Company, which will engage in the development, construction, marketing, sales and operation of the Class A Project;
- market and sell the Class A Properties to Myanmar Related Entities as exclusive agent, and market and sell the Class A Properties to parties which are not Myanmar Related Entities or Japanese Related Entities jointly with the Japanese consortium members; and
- engage in the development of Thilawa SEZ (other than the Class A Area) or any part thereof as may be determined by our Directors in their discretion.

For additional information about the Company, please refer to the Company's Prospectus dated 27<sup>th</sup> February, 2014.

The registered office of the Company is No. (29), Min Ye Kyaw Swar Road (UMFCCI Tower), Lanmadaw Township, Yangon Region, the Republic of the Union of Myanmar.

The validity of the Certificate of Incorporation issued to the Company is five years expiring on May 2, 2018.

The Company is listed in Yangon Stock Exchange on 20<sup>th</sup> May 2016.

---

**2. Summary of significant accounting policies**

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

## 2.1 Basis of preparation

The accompanying financial statements of the Company have been prepared in accordance with Myanmar Financial Reporting Standards (MFRS) and have been based on historical cost convention.

In preparing these financial statements, certain reclassifications and rearrangements have been made in 2016 financial statements to conform to the classification used in 2017.

## 2.2 Foreign currency translation

### (1) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of primary economic environment in which the Company operates (the “functional currency”). The financial statements are presented in Myanmar Kyats, which is the presentation currency as well as functional currency of the Company. All amounts have been rounded to the nearest thousands, unless otherwise indicated.

### (2) Transactions and balances

Foreign currency transactions are translated into the functional currency at the exchange rate prevailing on the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the income statement.

## 2.3 Group Accounting

### (a) Subsidiaries

#### Consolidation

Subsidiaries are entities (including special purpose entities) over which the Group has power to govern the financial and operating policies so as to obtain benefits from its activities, generally accompanied by a shareholding giving rise to a majority of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date on which control ceases.

In preparing the consolidated financial statements, transactions, balances and recognized gains on transactions between group entities are eliminated. Unrealised losses are also eliminated but are considered an impairment indicator of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests are that part of the net results of operations and of net assets of a subsidiary attributable to the interests which are not owned directly or indirectly by the equity holders of the Company. They are shown separately in the consolidated statement of comprehensive income, statement of changes in equity and statement of financial position. Total comprehensive income is attributed to the non-controlling interests based on their respective interests in a subsidiary, even if this results in the non-controlling interests having a deficit balance.

## (b) Associated companies

Associated companies are entities over which the Group has significant influence, but not control, generally accompanied by a shareholding giving rise to voting rights of 20% and above but not exceeding 50%. Investments in associated companies are accounted for in the consolidated financial statements using the equity method of accounting less impairment losses.

## (c) Equity method of accounting

In applying the equity method of accounting, the Group's share of its associated companies' post-acquisition profits or losses are recognized in profit or loss and its share of post-acquisition other comprehensive income is recognized in other comprehensive income. These post-acquisition movements and distributions received from the associated companies are adjusted against the carrying amount of the investments. When the Group's share of losses in an associated company equals to or exceeds its interest in the associated company, including any other unsecured non-current receivables, the Group does not recognize further losses, unless it has obligations to make or has made payments on behalf of the associated company.

Unrealised gains on transactions between the Group and its associated companies are eliminated to the extent of the Group's interest in the associated companies. Unrealised losses are also eliminated unless the transactions provide evidence of impairment of the assets transferred. The accounting policies of associated companies have been changed where necessary to ensure consistency with the accounting policies adopted by the Group.

### 2.4 Investment in associate

Investment in associate is initially recognized at the transaction price (including transaction costs) under the equity method of accounting and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the date of acquisition. The investor's share of the profit or loss of the investee is recognized in the investor's profit or loss. Distributions received from an investee reduce the carrying amount of the investment.

### 2.5 Investment properties

Investment properties are properties held to earn rental and/or capital appreciation (or both). Investment properties are initially recognized at cost and subsequently carried at cost less accumulated depreciation and accumulated impairment losses. Depreciation is calculated using a straight-line method to allocate the depreciable amounts over the estimated useful lives of fifty years.

The residual values, useful lives and depreciation method of investment properties are reviewed, and adjusted as appropriate, at each balance sheet date. The effects of any revision are included in profit or loss when the changes arise.

### 2.6 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is de-recognized. All other repairs and maintenance are charged to the profit or loss during the period in which they are incurred.

Depreciation on assets under construction commences when the assets are ready items of property, plant and equipment less their estimated residuals values using the straight-line method over their estimated useful life. The estimated useful lives are as follows:

Plant	5%
Office renovation	20%
Furniture and equipment	10%-40%
Motor vehicle	20%
Computer and equipment	20%
Machinery and equipment	20%

The residual values and useful lives of assets are reviewed, and adjusted if appropriate, at the end of the reporting period. The effects of any revision are recognized in profit or loss when the changes arise.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognized within 'other gains/(losses) – net' in the statement of comprehensive income.

## 2.7 Intangible assets

### Accounting software

Accounting software license is initially capitalized at cost which includes the purchase prices (net of any discounts and rebates) and other directly attributable costs of preparing the asset for its intended use. Direct expenditures are added to the original cost of the software. Costs associated with maintaining the accounting software license are expensed off when incurred.

Computer software license is subsequently carried at cost less accumulated amortization and accumulated impairment losses. These costs are amortized to profit or loss using the straight-line method over their estimated useful lives of five years equivalent to 20%.

## 2.8 Construction Contracts

When the outcome of a construction contract can be estimated reliably, contract revenue and contract costs are recognized as revenue and expenses respectively by reference to the stage of completion of the contract activity at the statement of financial position date ("percentage-of-completion method"). When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognized to the extent of contract costs incurred that are likely to be recoverable. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognized as an expense immediately.

Variations in contract work, claims and incentive payments are included in contract revenue when it is probable that the customer will approve the variation or negotiations have reached an advanced stage such that it is probable that the customer will accept the claim and they are capable of being reliably measured.

The stage of completion is measured by reference to the proportion of contract costs incurred to date to the estimated total costs for the contract. Costs incurred during the financial year in connection with future activity on a contract are excluded from the costs incurred to date when determining the stage of completion of a contract. Such costs are shown as construction contract work-in-progress on the statement of financial position unless it is not probable that such contract costs are recoverable from the customers, in which case, such costs are recognized as an expense immediately.

At the statement of financial position date, the cumulative costs incurred plus recognized profits (less recognized losses) on each contract is compared against the progress billings. Where the cumulative costs

incurred plus the recognized profits (less recognized losses) exceed progress billings, the balance is presented as due from customers on construction contracts within “trade and other receivables”. Where progress billings exceed the cumulative costs incurred plus recognized profits (less recognized losses), the balance is presented as due to customers on construction contracts within “trade and other payables”.

Progress billings not yet paid by customers and retentions by customers are included within “trade and other receivables”. Advances received are included within “trade and other payables”.

## 2.9 Inventories

Inventories are carried at the lower of cost and net realizable value. The cost comprises cost of land scraping cost, infrastructure development cost, direct labour and other direct cost. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and applicable variable selling expenses.

## 2.10 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and deposits with various local banks.

## 2.11 Trade and other receivables

Trade and other receivables are initially measured at fair value, and subsequently measured at amortized cost using the effective interest method, less provision for impairment. Trade and other receivables are reduced by appropriate allowance for estimated irrecoverable amount.

## 2.12 Trade and other payables

Trade and other payables are initially measured at fair value, and subsequently measured at amortized cost using the effective interest method.

## 2.13 Ordinary Shares

Ordinary Shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognized as a deduction from equity, net of any tax effects.

## 2.14 Dividends

Dividends to the Company’s shareholders are recognized when the dividends are approved for payment.

## 2.15 Employee Benefits

Employee benefits are all forms of consideration given by an entity in exchange for service rendered by employees. Employee benefits are recognized as payable in the period in which the benefit is earned by employee. Past-service costs are recognized immediately in profit or loss.

## 2.16 Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events; it is a probable that an outflow of resources will be required to settle the obligations; and the amount has been reliably estimated. Provisions are not recognized for future operating losses.

## 2.17 Revenue

Revenue is recognized only when it is probable that the economic benefits associated with the transaction will flow to the Company. Revenue is shown net of sales (after deducting commercial tax)

- (a) Rendering of services – Management fees and commission fees  
Fees and commission are generally recognized on an accrual basis when the service has been provided.
- (b) Sale of goods – Land  
Revenue from sales of goods is recognized when the goods are delivered and title has passed to the customer.
- (c) Interest income  
Interest income arising from deposit at financial institution is recognized when the effective interest method.
- (d) Dividend income  
Dividend income is recognized when the right to receive payment is established.
- (e) Revenue from construction contracts  
Please refer to the paragraph “construction contracts” for the accounting policy for the revenue from construction contracts.

## 2.18 Income tax

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The current income tax is calculated on the basis of the tax rate and tax law enacted or substantially enacted at the end of the reporting period. Current income tax is recognized in profit or loss.

## 2.19 Commercial tax

Revenues expenses and assets are recognized net of the amount of commercial tax except:

- where the commercial tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the commercial tax is recognized as part of the cost of acquisition of the asset or as part of the expenses item as applicable; and
- receivables and payables that are stated with the amount of commercial tax included.

The net amount of commercial tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

## 2.20 Related party

A party is related to an entity if:

- (a) directly, or indirectly through one or more intermediaries, the party:
  - (i) controls, is controlled by, or is under common control with, the entity (this includes parents, subsidiaries and fellow subsidiaries);
  - (ii) has an interest in the entity that gives it significant influence over the entity; or
  - (iii) has joint control over the entity;
- (b) the party is an associate of the entity;
- (c) the party is a joint venture in which the entity is a venture;
- (d) the party is a member of key management personnel of the entity or its parents;

- (e) the party is a close member of the family of any individual referred to in (a) or (d);
- (f) the party is an entity that is controlled, jointly controlled or significantly influenced by, or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (d) or (e); or
- (g) the party is a post-employment benefit plan for the benefit of employees of the entity, or of any entity that is a related party of the entity.

---

### **3. Significant accounting judgments and estimates**

The preparation of the Company's financial statements in conformity with MFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of revenues, expenses, assets and liabilities. Actual results may differ from these estimates.

Estimate and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the period in which the estimates are revised and in any future period affected.

#### **Infrastructure development costs**

Infrastructure development costs of land are recorded as inventories during the construction stage and an apportionment of these costs will be recognized in the statement of comprehensive income upon the recognition of the revenue of the land under development.

These infrastructure costs comprise of awarded contracts and an estimation of future ones. The total costs were estimated by a third-party professional Quantity Surveyor and periodically re-validated internally.

Before the final settlement of the development costs and other costs relating to the land under development, these costs are based on management's best estimate. Where the final settlement of costs and the related cost allocation is different from the initial estimates, any increase or decrease in the development costs and other costs would affect the profit or loss in future years.

---

### **4. Financial risk management**

The Group's financial risk management policy seeks to ensure that adequate financial resources are available for the development of the Group's business whilst managing its risks. In addition to the risk factors as stated in the Company's Prospectus dated 27<sup>th</sup> February, 2014, the main areas of financial risks faced by the Group and the policy in respect of the major areas of treasury activity are set out as follows:

#### **Foreign exchange risk**

The Group has exposure to foreign exchange risk due to assets and liabilities denominated in foreign currencies. However, the Group does not hedge its exposures to foreign exchange risk as the risk is not expected to be significant.

#### **Credit risk**

The maximum credit risk associated with recognized financial assets is the carrying amount shown in the statement of financial position. However, policies had been established by the Group to minimize such risks.

#### **Market risk**

The Group is not exposed to any market risk.

### Liquidity and cash flow risks

The Group monitors and maintains a level of bank balances deemed adequate by the directors to finance the operation and mitigate the effects of fluctuation in cash flow.

---

### **5. Capital management**

The Group's objectives, when managing its capital, are to safeguard and maintain adequate working capital to continue as a going concern.

**6. Property, plant and equipment**

The Directors are of the view that a fair value of the property cannot be ascertained at the time of drawing up the financial statements. The opinion is based on the following facts:

1. There is no such asset of this specification in Thilawa;
2. There is no history of such similar property transacted in Thilawa; and
3. No sales of any asset type have been recorded in the Thilawa SEZ.

As such, it is not possible for a valuation to be done on a willing-buyer / willing-seller basis. As such, the Sales Comparison Approach cannot be adopted.

To value the property using the income capitalization approach, the property has to be given sufficient time for leasing, and stabilization of that yield, for the capitalization rate to be applied. Since occupation permit was only quite recently obtained, the rental process is only in the beginning stage. Hence, the Income Capitalization Approach cannot be adopted.

Given that the first two valuation methods cannot be applied, the third would be the cost approach. This assumes that a reasonable buyer would have to pay equal or more than the cost of constructing a comparable building. The Cost Approach is probably the most prudent in estimating the book/ reinstatement value of such an asset.

Although the Directors have adopted to use the fair value approach in MAS 40 (Investment Property), the base cost (the more prudent value) is being used to record the value for the current financial close.
