
Announcement on the situation of Landing Station Project

The Board of Directors of TMH Telecom Public Co., Ltd. wishes to announce that the company has been implementing the maintenances of CMI (China-Myanmar Inland fiber) Landing Station of AAE1 in Ngwe Saung and Muse according to the Management Service Contract between TMH Company and China Unicom (Myanmar) Operation Co., Ltd. in October, 2017. AAE1 (Asia-Africa-Europe 1) is a 25,000 km submarine communications cable system from South East Asia to Europe across Egypt. As per the contract, TMH has been operating the followings:

1. Landing station's security, Property and power system maintenance.
2. Landing station Submarine equipment, DWDM equipment maintenance
3. NOC (Network operation center) management
4. 19 DWDM transmission node between Ngwe Saung and Muse maintenance.

Progress of the Project

The maintenance work was effective from 15 September, 2017 to 14 September, 2018. As such, up to March 2018, 50% of the contract scope has been completed.

However, it will not be the major contribution to the company's total profit. Thus, any investment decision of shareholders might not be impacted significantly but TMH's management expects that as it is newly one of the telecom services provided by our Company, with the start of this project, the company could have many new experiences and future prospects from the other relevant projects from China Unicom (Myanmar) Operation Co., Ltd..

Further announcements to shareholders on the implementation of these projects will be made timely.

By Order of the Board

Thiha Lwin

Managing Director
