Explanation on Dividend Distribution

Date: September 11, 2026

Based on the financial position of Ever Flow River Group Public Company Limited (EFR Group) as of March 31, 2026, the company has plans to acquire buildings, machinery, and commercial vehicles required for ongoing project expansions and operational activities within the group.

Our assessment indicates that rather than distributing the current net profits as dividends, reinvesting these funds into long-term fixed assets to capitalize on existing business opportunities will yield significantly higher earnings in the coming years. Furthermore, to support business expansion, it is essential to maintain an adequate level of operational working capital.

Accordingly, the Board of Directors has resolved to reinvest the profits for the 2025–2026 financial year rather than distributing dividends. We regret to inform shareholders that no dividend will be declared for this financial year. We assure our shareholders that we will endeavor to maximize future dividend distributions in the years ahead.

On behalf of the Board of Directors

U Maung Maung Oo

Vice Chairman

Ever Flow River Group Public Company Limited
